To whom it may concern,

I am pleased to write a letter of recommendation for Eliane Birba, one of our Master students in EIT Digital data science and entrepreneurship programme.

Eliane took “Large Scale Machine Learning and Deep Learning” and “Data Intensive Computing Platforms” courses with me. She has been an active student throughout the courses and demonstrated her focus and interest in all of the projects and tasks I have assigned to the class.

Eliane has shown her motivation and intelligence for graduate study, and I am extremely confident that she will do a great job in research or whatever task she embarks upon.

Please feel free to contact me, if there are any questions I can answer.

Best Regards,

Amir H. Payberah
Assistant Professor of Computer Science
KTH Royal Institute of Technology
School of Electrical Engineering and Computer Science
Department of Software and Computer Systems
