EDUCATION

Stanford University - <i>MS in Statistics/Data Science (GPA: 3.89/4)</i>			Stanford, US
Reinforcement Learning	Deep Learning	Statistical Learning	Sept 2014 – June 2016
Graphical Models	Computer Org & Systems	Statistical Modeling	
Stochastic Processes	Distributed Computing	Statistical Consulting	
<i>Teaching Assistant in CS231n: Convolutional Neural Networks for Visual Recognition (Winter 2016)</i>			
Ecole Centrale Paris - <i>MS in Applied Math (GPA: 3.85/4)</i>			Paris, France
Machine Learning	Algorithms	Graph Theory	Sept 2011 – June 2013
Optimization	Probability Theory	Linear Algebra	
<i>Teaching Assistant: Conducted weekly oral exams in Math for sophomore students</i>			
Lycée Hoche - <i>Major in Math, Physics and Computer Science (GPA: 4/4)</i>			Versailles, France
Preparatory program leading to the nationwide entrance exams to the French Grandes Ecoles.			Sept 2009 – June 2011

EXPERIENCE

Google Brain Resident – Google Brain		Mountain View, US
One year <i>research program</i> in deep learning: g.co/brainresidency . Focus on <i>deep reinforcement learning, combinatorial optimization, search and backtracking</i> .		June 2016 - June 2017
Research Assistant - AI Lab (Andrew Ng's group)		Stanford, US
Research on <i>deep reinforcement learning</i> with an emphasis on <i>transfer learning</i> within the Atari domain and from the Atari domain to computer vision tasks.		April 2015 – Dec 2015
Data Scientist Intern - Quora		Mountain View, US
Built a pipeline (<i>backend and frontend</i>) to infer the knowledge in demand, analyzed historical traffic data and <i>prototyped a neural network language model</i> for question generation.		June 2015 – Sept 2015
Data Scientist Intern - PopSugar		San Francisco, US
Led a project on style inference for ShopStyle's clothing brands: <i>Web crawling, NLP & text mining, multi label classification using textual data and clustering analysis</i> based on survey data.		May 2014 – Aug 2014
Visiting Research Student - NICTA (Ambiata)		Sydney, Australia
Worked on <i>feature engineering</i> (<i>graph spectral theory, location inference</i>) and <i>feature selection</i> (<i>entropy based methods</i>) for large scale call records data. Python, Scala/Scoobi and GraphChi.		Nov 2013 – April 2014
Machine Learning Intern - Infosys Machine Learning Lab		Bangalore, India
Implemented a prototype for a general E-commerce <i>online recommender system based on Markov Decision Process</i> using Python.		July 2013 – Sept 2013

PAPERS

Irwan Bello*, Hieu Pham*, Quoc Le, Mohammad Norouzi, Samy Bengio. Neural Combinatorial Optimization with Reinforcement Learning. *Arxiv 2016*. <https://arxiv.org/pdf/1611.09940.pdf>

PROJECTS

Data Science Summer School		Guadeloupe
Organizing a one week data science summer school in an eight-person team. Designing curriculum, class material, and coordinating logistics. Will be teaching a variety of subjects.		Planned for 2017
Humanitarian mission - Les Enfants du Soleil (NGO)		Fiana, Madagascar
Organized a €20k <i>volunteering project</i> in a twelve-person team. Raised funds and identified most urgent needs. Taught and built infrastructures in a village of 100 orphans for 6 weeks.		Sept 2011-July 2012

SKILLS

Programming	<i>General:</i> Python, C/C++, SQL, Bash/Unix, Git, Docker, Vim.
	<i>Machine Learning:</i> Tensorflow, Numpy, Scipy, Pandas, Scikit-Learn, Keras, Lua/Torch, R.
	Prior experience with Scala, Graphchi/Graphlab and HTML.
Languages	Native French speaker, French-German baccalaureate.

AWARDS

Aspen Institute	Aspen Ideas Festival Scholar	2016
Monahan Fulbright Scholar (30k\$)	<i>Five most deserving French STEM graduates</i> studying in the US.	2014
Rotary Global Grant (30k\$)	Series of inspirational talks on my interests and life experience.	2014
Mathematical Olympiad	Honors at the <i>French Mathematical Olympiad</i> in the 11th grade.	2008

EXTRACURRICULARS

Other skills	Piano, DJing, capoeira, tennis, soccer.
Interests	DJing & music production, future technologies, large scale social impact, competitive super smash bros melee, public speaking, travelling.
